Under the Dome: Evidently re-  
membering the Gulf of Tonkin "at-  
tack" that got the United States in-  
olved in the Vietnam conflict, Sens.  
Charles Percy (R-Ill.), Claiborne Pell  
(D-R.I.) and Patrick Leahy (D-Vt.)  
have demanded documentation for  
the State Department's assertion that  
El Salvador is a "textbook case" of  
communist aggression. Among the  
documentation requested in a confi-  
dential letter is hard evidence of di-  
rect Soviet aid to Salvadoran leftists;  
the "adequacy of intelligence collec-  
tion" in Latin America and "an assess-  
ment of the nature and depth of cor-  
ruption in El Salvador's government."
